

June 5<sup>th</sup>, 2024

Dear Sir / Madam

My name is Dr Rob Miles, and I am currently a lecturer in the Education Division at RAK Higher Colleges of Technology in the UAE. Formerly I was the Program Coordinator of English Communications at Sharjah Women's College, Sharjah Men's and Dubai Men's campuses of the Higher Colleges of Technology in the United Arab Emirates.

Elizabeth Cobacho joined the HCT in 2017 and taught across a variety of English and General Studies programs. Besides teaching, Elizabeth was also the Academic Success Center Coordinator at Dubai Women's College.

Elizabeth is proficient in teaching large or small groups across varying levels of linguistic ability. She is also particularly effective in one-to-one contexts, tutoring for specific academic needs, a role she excelled at in her work with the Academic Success Center.

The Higher Colleges are a technology-rich environment, and Elizabeth is a proficient user of classroom technology in both face-to-face and online classrooms. As part of her annual appraisal I formally observed Elizabeth in the classroom on several occasions, and she impressed on each occasion. She develops an excellent rapport with her students, has excellent classroom management, is well-organized and has student success at the center of everything she does.

Elizabeth made a significant contribution to course development with work on online materials and assessments. She was also very active in faculty professional development, both as a presenter and an attendee. She is a confident and effective speaker, and comfortable in front of any audience.

Elizabeth is someone I rate extremely highly as a professional, and I have absolutely no hesitation in recommending her for any position.

Please do not hesitate to contact me should you need any more information. My contact details can be found below.

Regards

Dr Rob Miles
